DETAILED ACTION

Allowable Subject Matter

1. Claims 6, 7, 9, 19, 21, 39, 40, 42, 44-47 and 59-73 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 6, 7, 9, 19, 21, 39, 40, 42, 44-47 and 59-73 are allowable because the prior art of record neither anticipated nor rendered obvious that an electro-optical display device comprises various related elements as claimed with specific features recited in the claims 6, 7, 9, 39, 40, 42, 59 and 60 as follows.

The gate insulating film has a first contact hole; the interlayer insulating film has a second contact hole and is in contact with the gate electrode; the electrode (drain electrode or source electrode) is in contact with the one of the source region and drain regions in the first contact hole; leveling film comprising an organic resin formed over the electrode and has a third contact hole; the pixel electrode formed over the leveling film and electrically connected to the electrode (such as drain electrode) through the third contact hole; the gate insulating film contains fluorine and is in contact with a top surface and side surface of the semiconductor film, and the third contact hole is located apart from the first contact hole and the second contact hole such as shown in Fig.22(I) and Fig.6(G).

The references of the information disclosure statement (IDS) filed on October 28, 2009 do not teach the technical features set forth above. Some references, such as US 7420628, US 7479939, US 7423290, US 7489367 have common inventor and the same assignee.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
